Profile

Motivated and detail-oriented Computer Science student with hands-on experience in Python and Django web development. Skilled in building full-stack web applications using Python Django, HTML, CSS, Bootstrap, SQLite, and MySQL. Possesses a strong understanding of Data Structures & Algorithms (DSA), Database Management Systems (DBMS), and Object-Oriented Programming (OOP). Developed projects such as an Ice Cream Ordering Web Application featuring user authentication, product management, and database integration. Passionate about software development, problem-solving, and building efficient, user-friendly applications while continuously learning new technologies.

Technical Skills

- **Frontend:** HTML, CSS, JavaScript.
- **Languages:** C++, Python.
- **Framework:** Django, Bootstrap.
- **Core Concept:** Data Structures and Algorithms, OOPS, Responsive Web Design, DOM Manipulation, Event Handling, and Form Validation.
- **Database:** DBMS, MySQL, SQLite.
- **Tool:** Git, GitHub, VS Code.

Projects

Creamora – Ice Cream Ordering Web Application | Django Full Stack Project

January - 2025

Tech Stack: Python, Django, HTML, CSS, Bootstrap, SQLite

- Developed a full-stack ice cream ordering web application using Django.
- Implemented user authentication including registration, login, and logout functionality.
- Created dynamic product listing pages for browsing different ice cream products.
- Integrated Django ORM with SQLite database for efficient data management.
- Developed online ordering functionality with product details and order processing.
- Built an admin dashboard for managing products and customer orders.
- Designed a responsive and user-friendly interface using HTML, CSS, and Bootstrap.
- Followed MVC/MVT architecture and best practices for web development

Jarvis AI Assistant | Python, Speech Recognition, pyttsx3

July - August 2025

- Engineered a voice-controlled virtual assistant using Python, enabling hands-free execution of tasks such as opening Google, YouTube, and Facebook, and playing music.
- Integrated Speech Recognition for voice input processing and pyttsx3 for text-to-speech output, enhancing user interaction and automation efficiency.
- Automated routine browser-based actions, improving task execution speed and reducing manual effort.
- Designed a modular and scalable structure, allowing easy addition of new voice commands and functionalities.

Certifications

Web Development Training (45 Days) | Diploma Program | Pisoft Informatics Pvt. Ltd., Mohali

- Completed training in HTML, CSS, JavaScript, responsive web design, validation and DOM manipulation.
- Developed an Ice Cream Ordering Web Application using Django, featuring user authentication, product management, and database integration.

August 1 – September 2023

Education

State Institute of Engineering & Technology Panchkula (Pursuing) <i>Computer Science and Engineering (Cyber security)</i>	October 2024 – May 2027 <i>Panchkula, Haryana</i>
Government Polytechnic Morni <i>Computer Science and Engineering: 76.10%</i>	October 2021 – May 2024 <i>Panchkula, Haryana</i>
Government Sr. Sec. School <i>12th with Arts — Percentage: 82.20%</i>	August 2020 – March 2021 <i>Panchkula, Haryana</i>
Government Sr. Sec. School <i>10th with Science — Percentage: 65.20%</i>	August 2018– March 2019 <i>Panchkula, Haryana</i>
